Imported Quartz Sinks from the Inventors !

Sinks, built in harmony with nature !

FROM THE
BAVARIAN
FOREST

How to buy your perfect Quartz Kitchen Sink ?

Please note: → A treated water supply will prevent scaling, dirt etc on the sink and extend the life of the faucet. → Use only soap solution to clean the sink with a cloth or soft brush once every day.

The Following chart helps you to identify the right sink model & Colour for your Kitchen

Sink Type	Cabinet Size	Overall Size (Inches)	Sink Model & Colors	Installation Type
One Bowl with Drainboard (DB)	600 mm (24 Inches)	40 x 20 x 8	Mono D-100 L - Dusk & Night	Flush Mount
		40 x 20 x 8	Mono D-100L -Puro, Rouge & Twilight	Top Mount
		40 x 20 x 8	TIA D-100L - Puro	Top Mount
		40 x 20 x 8	Wembley D-100L - Bronze	Top Mount
		40 x 20 x 9	Viola D-100L - Nero & Everest	Top Mount

Large Bowl	900 mm (36")	33 x 19 x 10	Virtus N-100XLY - Nero	Under Mount

***Launching Nov / Dec 2025**

Countertop Options and Depths: Choose the countertop in contrast to the sink colour / nearest color or a neutral colour. Today, one has many choices for a Modular Kitchen Countertop material viz Granite - Quartz Stone - Nano Stone - Engineered Stone - Ceramic/Porcelain full body tiles (sintered stone) - Solid Surfaces - Wood / Ply. We recommend 18mm Granite or 20 mm Quartz Stone. Countertop Depth is very critical for the installation of a Hob, Sink & Faucet. Clear depth is the depth from the dado tiles (post-installation) to the end of the Countertop. We suggest customers ensure there is a clear minimum depth of **615 mm** to a maximum of **625 mm** for the countertop (except for the Gola profile handle Kitchens). Kindly validate with your modular kitchen vendor.

Cleaning the Kitchen Sink ! While everything gets washed and cleaned in the sink, the sink does not get its turn every day. We suggest any soap-based solution with a cloth to be used for cleaning. Please avoid Acid in any form. Schock Cristadur Sinks repel water and prevent scale formation, dirt etc. SCHOCK comes with PROKLEAN - sink cleaning liquid exclusively developed for SCHOCK Quartz Sinks.

Post Installation Safety: After installation of the sink, kindly cover the sink with a plastic cover and seal all sides with paper tape. Also ensure false ceiling patti-filler or white cement etc does not fall into the sink. The faucet shall be covered and sealed so nothing is washed on the sink when site is under interior Fitouts / Painting / Deep cleaning.

CRISTADUR®

CRISTADUR® ADVANTAGES

The premium material wins fans with its patented, poreless structure and beautiful shimmering finish, from which any dirt and water simply roll off. Being extremely easy to clean, it's not just the look of CRISTADUR® that makes it a luxury to adorn any kitchen.

SILKY-SMOOTH FINISH
 Feel the difference with the poreless structure.

DIRT REPELLENT EFFECT
 Water and dirt simply roll off the surface, leaving nothing for germs and bacteria to grow on.

EASY TO CLEAN
 The poreless finish and dirt repellent effect makes the sinks extremely easy to clean.

INTENSE COLOURS
 More than 9 intensely shimmering colours from pure white to jet black - and if you like it loud, you can even have red.

Improved material formula

SCHOCK

GERMANY

Product advantages

SCHOCK sinks are predominantly made of quartz. The finishes were specially developed by SCHOCK for the demands of the kitchen. The rigours of everyday use leave barely a trace on our proven material technology.

Who invented it?

SCHOCK is the inventor of the coloured, quartz composite sink and is the only manufacturer to offer CRISTADUR®, a premium, silky-smooth finish.

Externally tested

Various product quality features are regularly tested internally, as well as by DEKRA. This is how we ensure that we meet your quality requirements. In terms of corporate sustainability, we are also subject to external evaluation based on international standards such as GRI or the United Nations Global Compact.

Why SCHOCK?

World's First Water Repellent Sink!

The water quality is not consistent and many times we mix or switch between treated (Metro Water) and non-treated (Borewell Water) which leaves hard water stains, soap scum, dirt, scales buildup, residues, etc for the water does not drain instantly and stays in the sink for a longer period. Our Cristadur patented silky smooth finish repels water thereby discharging the entire water into the drain instantly eliminating scale formation, dirt, etc.

India's First - Flush Mount Drainboard Sinks!

Schock Flushmount sinks seamlessly integrate into the countertop (recommend 20mm Quartz stone or Granite) which enhances the visual appeal due to its edgeless design and prevents water seepage through the sink.

Overflow

All Schock sinks come with Overflow to prevent flooding when the drain stopper is engaged or when the kitchen tap is left open. Also, the Overflow prevents airlock in the drain pipe which occurs occasionally.

Perfect Drain

A new invention by Schock - Perfect Drain turns the plughole into a design element. Even the smallest of grime particles can find no place to stick and leave unsightly scum. Visually appealing as less steel is used in the base of the sink. (Only in Brooklyn, Wembley, and TIA models).

LED Light

Schock is the only brand that offers you a high-end LED light option for your sink with a sensor touch. Fill a Schock sink with ice and all of sudden it becomes an illuminated drinks cooler taking center stage at a party. Besides looking great, the additional light source in the sink boasts fantastic practical benefits - Never again you will lose little kitchen utensils in the sink.

Matching Visible Trim options

Give your Cristadur sinks a visual upgrade and colour coordinate with your chosen Faucet with Trim parts like Waste hole coupling + Popup + Overflow Cap + Soap Dispenser + Drainer grid in Puro / Copper / Gunmetal. (For Signus and Mono models only).

Diamond Drill

All Schock Cristadur sinks come with a Diamond Drill, for the sinks are very hard. This Diamond Drill is to be used for drilling the pre-punched holes from the rear side of the sink.

FLUSH MOUNT

DESIGN

- 1 **FLUSH MOUNTED SCHOCK VARIETY**
The CRISTADUR® range encompasses a wide variety of models and options. Please see the product range summaries for more information.
- 2 **EDGELESS DESIGN**
A highlight for design and cuisine aficionados with high expectations of their kitchen architecture.
- 3 **PERFECTLY HYGIENIC**
With no edge or ridge between worktop and sink, neither water residues, food scraps nor grime have any chance to settle – they can be swept straight into the sink.
- 4 **MORE WORKSPACE**
Having the two areas joined in that way makes more workspace available.
- 5 **COORDINATING MATERIAL FINISHES**
The flush mount sink in gleaming colours produces a style-conscious look in combination with high-grade worktops.
